This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

SEQ. ID. No. 130 refers to the sequence in Figure 22. Figure 22 indicates that said sequence is represented in the 3' to 5' direction (eg. antisense). Said sequence is listed in the sequence listing in the 3' to 5' direction. However, the preJuly 1998 sequence rules (under which the instant sequence listing was submitted) 37 CFR 1.822 (j) state that antisense sequences need to be submitted in the 5' to 3' direction. Said sequence should than be described as antisense in the appropriate section of the listing. A similar requirement is also found in the post July 1998 sequence rules (see 37 CFR 1.822(c)(5)).

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.

Any inquiry concerning this communication should be directed to Examiner Ron Schwadron, Ph.D., Art Unit 1644, whose telephone number is (703) 308-4680. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (703) 308-0196.
